

Abhinandan Dadaso Yalamante

Mobile Application Developer (Flutter & Android) — AI-Assisted Development

Career Objective

Motivated B.Tech student with hands-on experience in Flutter and Android development. I have built multiple real-world applications including AssignMate and a billing system used in a shop. I actively use AI tools to improve productivity, debugging, and development speed. Seeking a software development internship to gain industry experience.

Education

B.Tech (Final Year)

D Y Patil College of Engineering and Technology, Kolhapur

12th (2023)

Zeal International School and College, Sangli

10th (2021)

Cambridge School, Miraj

Technical Skills

- **Languages:** Java, C++, Python, Dart, SQL
- **Web Technologies:** HTML, CSS, JavaScript, TypeScript
- **Frameworks & Tools:** Flutter, Android (Java), Firebase, REST APIs, Git, GitHub
- **Core Concepts:** DBMS, App Development, API Integration, Problem Solving

Projects

AssignMate – Student Resource Sharing App

- Developed a mobile application for sharing assignments, notes, and PYQs
- Designed user-friendly UI for uploading and accessing resources
- Solves real-world academic collaboration problem among students

Billing App (Real Shop Usage)

- Built a billing system for real shop operations
- Implemented product management, pricing, and bill generation
- Improved efficiency and reduced manual calculation errors

Expense Tracker App

- Developed app to track daily expenses and manage finances
- Designed clean UI and structured data storage

Weather App (API Integration)

- Integrated REST API to fetch real-time weather data
- Displayed temperature, conditions, and forecasts dynamically

Strengths

- Strong problem-solving and logical thinking skills
 - Quick learner with adaptability to new technologies
 - Hands-on development experience with real-world projects
 - Effective use of AI tools for faster development and debugging
